Mercury Shredder RDS2270 Ribbon Cut

2102433

Overview

Large, new style departmental shredders in a choice of security options
Unique Mercury anti-jam technology prevents paper jams

Description

Protect your confidential and valuable information from being stolen by shredding any documents that may put your business at risk from identity fraud. The Rexel Mercury RDS2270 departmental shredder is perfect for a shared office of 10-20 users and has a S2 security level that means that it shreds paper into ribbon cut particles (sized 5.8mm) making it ideal for everyday shredding.

Paper jams in a shredder are time consuming, frustrating, messy and can be costly if you have to call out an engineer. With the RDS2270 shredder, paper jams are a thing of the past. Featuring the revolutionary Mercury Jam Free technology, the RDS2270 has a unique brightly lit LED indicator that warns you whether you are trying to feed too much paper into the shredder in one go. The illuminated red light means you should stop and remove some sheets of paper and illuminated green light means that there is no risk of jamming.

The RDS2270 is a large volume shredder that can shred up to 22 sheets of 70gsm paper in a continuous

single feed as well as CD's, credit cards, paperclips and staples. Specifically designed for regular shredding of documents, it features a large 70 litre large capacity pull out frame with plastic or paper bags that holds up to 600 sheets of 70gsm paper meaning you have to empty less frequently. The front opening door and pull out frame is designed to enable simple and mess free emptying and the shredder cuts off automatically when the bag is full signalling that it needs emptying. The RDS2270 goes into power saving mode after 2 minutes of non use, making it an ideal choice for the environmentally friendly office. Optional 70 litre paper waste sacks are available to encourage you and your colleagues to recycle the shredded paper. With a clear, easy to use LED control panel, castors for easy manoeuvring around the office and quiet operation, the stylish RDS2270 is a practical choice for a busy office environment that frequently shred.
